

antlr4::Lexer

antlr4::Lexer

parser::DQGrammarLexer

```
classDiagram
    class antlr4_Lexer["antlr4::Lexer"]
    class parser_DQGrammarLexer["parser::DQGrammarLexer"]
    antlr4_Lexer <|-- parser_DQGrammarLexer
```

The diagram illustrates a class inheritance relationship. At the top, there are two boxes, both labeled 'antlr4::Lexer'. Below them, centered, is a box labeled 'parser::DQGrammarLexer'. A horizontal line connects the bottom of the two 'antlr4::Lexer' boxes. From the center of this line, a vertical line descends to the top of the 'parser::DQGrammarLexer' box. From the top-left corner of the 'parser::DQGrammarLexer' box, a line extends leftward, then turns upward at a right angle to end in an arrowhead pointing at the bottom-left corner of the left 'antlr4::Lexer' box. Similarly, from the top-right corner of the 'parser::DQGrammarLexer' box, a line extends rightward, then turns upward at a right angle to end in an arrowhead pointing at the bottom-right corner of the right 'antlr4::Lexer' box.
