

antlr4::ParserRuleContext

antlr4::ParserRuleContext

parser::DQGrammarParser::ProbeComponentContext

```
classDiagram
    class antlr4_ParserRuleContext {
    }
    class parser_DQGrammarParser_ProbeComponentContext {
    }
    antlr4_ParserRuleContext <|-- parser_DQGrammarParser_ProbeComponentContext
```

The diagram illustrates a class inheritance relationship. At the top, there are two identical boxes, each labeled 'antlr4::ParserRuleContext'. Below these, centered, is a box labeled 'parser::DQGrammarParser::ProbeComponentContext'. A horizontal line with upward-pointing arrowheads at both ends connects the two top boxes. A vertical line descends from the center of this horizontal line to the top edge of the bottom box, indicating that 'parser::DQGrammarParser::ProbeComponentContext' inherits from 'antlr4::ParserRuleContext'.
